K-12 THREAT VULNERABILITY & RISK ASSESSMENT (TVRA)
An impartial assessment of your facility’s physical security needs.

An comprehensive Threat Vulnerability Risk Assessment (TVRA) is the first step in developing an effective facility security program. A properly conducted TVRA provides a solid defensible foundation from which to build a physical security program at any site, facility or location. The TVRA identifies the security gaps and safety risks a school or an organization faces and ensures that the physical security plans and protocols are designed to address and fix those risks and create a roadmap that can be used to close any identified security gaps. Effective security starts with a clear understanding of your vulnerabilities. We can help you understand your strengths and weaknesses so you can make your school as safe as it can be.

The 3 pillars of a well-executed TVRA include an in-depth comprehension of your:
- PREPERATION
- COMMUNICATION
- NOTIFICATION

Proposals are based on number of schools and type:
- High School
- Middle School
- Elementary
- Administrative Building

“The Security Threat Vulnerability, Risk Assessment (STVRA) that True Security Design conducted for the Sachem Central School District was incredibly beneficial to our continued focus on safety and security. Joe Pangaro and his staff brought a professional perspective and energy to the STVRA process. Our district serves over 13,000 students across 15 schools. Throughout the process True Security Design gave every one of our schools the attention required for the most thorough analysis. The STVRA was followed up by opportunities for district administrators to receive ongoing clarification and consultation, as well as a presentation to the Board of Education and our community. Our security practices have been much improved as a result of the audit. True Security Design is most worthy of consideration by school districts seeking exceptional quality in the area of security analysis.”

Dr. Kenneth E. Graham, Sachem Superintendent of Schools

Sachem Central School District
We Are Sachem

All TVRA's include a step by step roadmap for remediation based on severity.
